

### Digital Health CRC Project Internal EOI form

\* indicates a required field

#### Overview

The Digital Health Cooperative Research Centre (DHCRC) was funded from 2018 to 2025 with the goal of **“connecting the ecosystem of industry, government, providers, consumers, academia and research to solve the most pressing healthcare challenges”** (<https://digitalhealthcrc.com>). RMIT University is an academic partner engaged in industry-led research projects and delivering online learning relevant to the CRC.

DHCRC is seeking further industry/academic collaborative projects under the following themes:

- 1.Digital Care
- 2.Effective use of health-related data
- 3.Education and capability
- 4.Equitable access to digital health

The purpose of this EOI form is to assist RMIT in developing suitable proposals to take to DHCRC for funding.

Word limits are guidelines only and aim to focus the text on key criteria.

**NOTE:** Due to the short window of opportunity for the DHCRC, projects focused on technology translation with high Technology Readiness Level (TRL > 4) will be most suitable for funding.

**Please select the theme/s relevant to this application \***

- |                                       |   |   |   |
|---------------------------------------|---|---|---|
| <input type="checkbox"/> Digital care | <input type="checkbox"/> Effective use of health-related data | <input type="checkbox"/> Education and capability | <input type="checkbox"/> Equitable access to digital health |
|---------------------------------------|---|---|---|

**Please indicate the technology readiness level (TRL) for this proposal. (Should be >4). \***

**Brief justification for TRL (1-2 sentences max) \***

#### Applicant Details

**Name and Title \***

**Email Address \***

## Partner Details

CRC projects should involve industry partner-led research. Below you can find industry and public sector partners who have already committed to the CRC. Please tick any industry and/or public sector partners involved in the project.

**NOTE: If some or all of your partners are not yet members of the CRC, there are still opportunities to participate. There is a box at the end of this section for you to list those partners.**

☐ Department of Health and Human Services (Victoria)   ☐ Metro South Hospitals and Health Service   ☐ Western Australia Department of Health (WA Health)

**Please list any industry or public sector project partners not listed above.**

### Assessment Criterion #1 - Project Value (50% / 500 words)

Please consider the following: What are you trying to do? Articulate your objectives using absolutely no jargon. How is it done today, and what are the limits of current practice? Market gap? What is new in your approach and why do you think it will be successful? What are the measures of success in terms of outcomes/impact/uptake? Who will be the end users? What are the risks? Milestones? How long will it take? (DHCRC will only operate for 3 more years)

**Response \***

Word count:

### Assessment Criterion #2 - Team Capability, experience and capacity of the organisation (30% / 300 words)

Please consider the following:

- Who is/are the industry partner/s and how suitable are they?
- Who are the academic team and what is their record of accomplishment relevant to the proposal?
- Why does **this** partnership have the best chance of achieving success?
- Does the team have the time and resources? If not, will the proposal build the necessary capability?

**Response \***

Word count:

### Assessment Criterion #3 - Value for Money (20% / 200 words)

Please consider the following:

- What is the expected contribution from RMIT (in-kind salaries/equipment)? Is this reasonable for the expected return?
- What is the contribution from the partner? (In-kind salaries/IP?)
- What longer term financial benefits to RMIT could be realised from the project?
